## Hybrid - Super Plank

### Australian Timber

The warmth and character provided by our Australian timber species, Blackbutt and Spotted Gum remain a popular choice for designers and renovators alike. Each plank provides its own unique story with 3 varying decors visual that display stunning texture and natural colour variation.

### Contemporary Decors

Our design team has created a subtle palette with colour versatility ideally suited to a variety of on-trend interior decors. Plank decor visuals are repositioned at manufacture to provide 8 orientations of decor paper, this delivers a floor with great personality and charm.

The entire range features advanced embossing techniques across the length and width of the plank including micro bevel. The unique process will not compromise the decor visual or durability.
